Godot Engine 2025 Showreel

What Is GodotCon?

GodotCon US is the US-based Godot user conference taking place at the Microsoft NERD Center in Cambridge, Massachusetts, United States. There are two planned components, a day of workshops and two days of talks. We plan to have potentially 400 people in attendance, but will get farther reach when we consider the posting of talks and our collaboration with the Godot Foundation.

We will have plenty of opportunities to talk about the conference and it's sponsors in posts, on Discord, and in newsletters. All talks will be recorded and posted online.

Who Is Running It?

Behind GodotCon US are two non-profits: The **Godot Foundation** and **SceneTree**.

Based in the Netherlands, The **Godot Foundation** is the driving force behind the Godot Engine and is a European non-profit.

On the US-side is **SceneTree**, a 501(c)3 non-profit. Our mission is to provide open source game development education and communities. After running the first US-Based GodotCon, SceneTree was formed to continue hosting Godot events from the United States.

The Godot Foundation is helping to organize the conference with SceneTree and volunteers from the Boston Godot Usergroup and the backing of [Boston Game Dev](#), another local 501(c)3 charitable organization focused on growing game development.

The entire GodotCon Boston team returns to run GodotCon including Joseph Hill, Chad Stewart, and Tom Schultz.
